*** We do our best to choose varieties that will be superior in taste and variety in color. We do grow only heirloom variety tomatoes. So specific hybrid varieties will not be available from us. If you want us to plant a specific variety that you are fond of you will have to purchase these varieties and we will include them in our planting times

**Flowers are important to add in your garden for pollination. We will be including them in your garden.

Summer planting only

- Eggplant
- Cucumbers
 - Lemon
 - Slicing
- Tomatoes
 - Roma
 - Slicing
 - Cherry
- Peppers
 - Hot (Anaheim, Jalapeño)
 - Sweet

Squash --summer

- Zucchini
- Zephyr- yellow squash

Squash--winter

- Pumpkin
- Acorn
- Spaghetti
- Butternut

- Beans-snap
- Basil

**All vegetables are planted according to the correct timing for the Pacific Northwest. Each week could be different to what is available in your garden. When first planted it can take several weeks for you to start receiving your harvest.

** We ask that you do not plant in the areas we have been contracted to grow in. There is specific spacing that needs to happen as well as multiple plantings that we save space for.
